THE CERTIFICATION

SAQ **Swiss Association for Quality** offers personnel certifications of professional qualifications accredited by the Swiss Accreditation Service (SAS) according to SN EN 17024.

Swiss Association for Quality

The **Certified Commodity Trading Specialist (CCTS)** is a SAQ certification in the commodity trading sector and aims to be recognized as a quality benchmark for professionals active in this field.

THE TRAINING

The course involves **highly qualified professionals**, who will contribute with direct experience from the industry.

WHO WILL BENEFIT

- **Traders or operators** early in their careers as **commodity trading employees**, who wish to receive a comprehensive overview of commodity trading;
- **Other specialists in commodity companies** who wish to complete their knowledge about processes of other functions and be more prepared to step up as senior within the organisation;
- **Employees or managers of companies that provide services to the commodity sector**, such as banks, auditing, legal, transportation, risk management, insurance companies, etc., who wish to better understand the industry in which their clients operate;
- **Entrepreneurs, directors, finance managers, sector managers, etc., who are active in small and medium-sized companies** that have foreign dealings and wish to learn more about commodity trading.
- **Graduates aiming to begin their career in the industry**

OBJECTIVES

At the end of the training, participants will be able to:

- Apply the **fundamentals** of commodity trade and interpret geopolitical dynamics;
- Correctly place the importance and role of raw materials in their **business value chain**;
- Recognize the most important and/or critical aspects related to the **supply and transportation** of raw materials and be able to identify the right solutions;
- List the parameters and operations of **trade finance** in commodity trading and know how to apply them to one's own business reality;
- Identify and manage the major **risks** associated with commodity trading;
- Correctly apply **laws and regulations** related to the commodities industry;
- Recognize the need to apply the principle of **sustainability** in the commodity trading business and the respective critical issues.
